Accessing AP Classroom and the AP Digital Portfolio

Step 1: Enroll in an AP Seminar or AP Research Class Online in My AP

- At the start of the school year, your teacher or AP coordinator will provide you with a join code, which you will need to use to enroll in your AP Seminar or AP Research class through My AP. After August 1, 2019, sign in to My AP with your College Board account and make sure you've joined your class section. If you haven't, you'll need to follow [these steps](#) for joining your section online.

Step 2: Access the AP Digital Portfolio

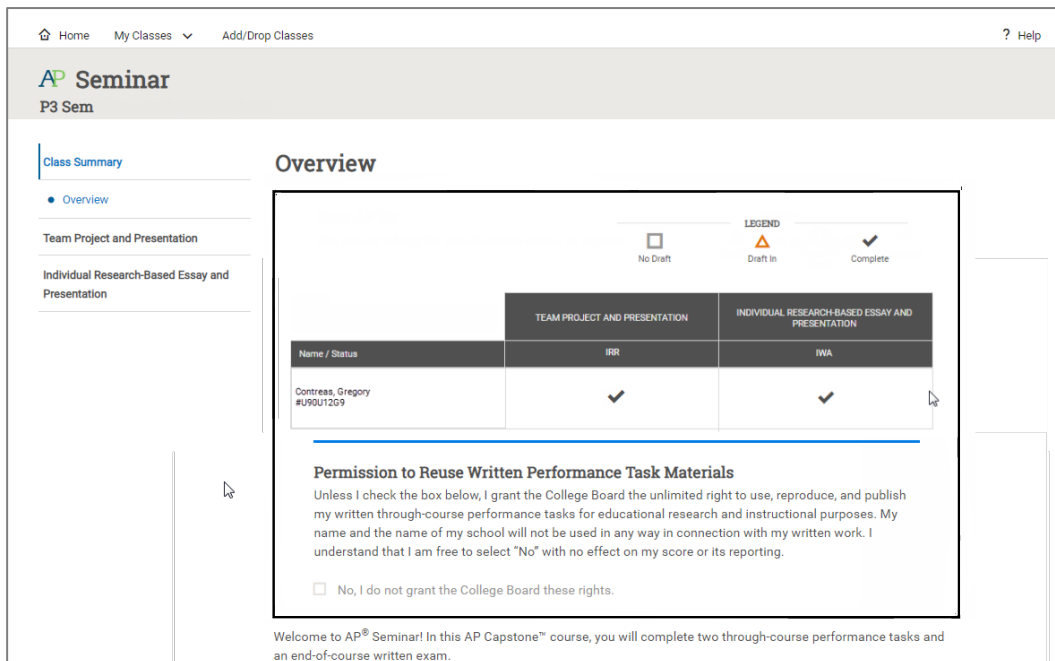

- Go to digitalportfolio.collegeboard.org and log in using your College Board username and password (the same information you used to access the My AP application). It is important to use the same College Board username and password for both My AP and the AP Digital Portfolio. Creating a new account when you have an existing account can cause issues with access to the AP Digital Portfolio.

Confirm Your Exam Registration

- If you want your AP Seminar or AP Research end-of-course exam/performance tasks to be scored for an AP score, you'll work with your AP coordinator to ensure that you're included in the exam order, and you'll register for the exam in My AP, if required. See your AP coordinator or teacher for information about how to register for exams, and for any important deadlines. Note: there is no end-of-course exam for AP Research, but you need to register for the exam in order for your work to be scored.

- Starting in November, you will be able to use the progress view on the Overview page of the digital portfolio to confirm you are included in your school’s exam order. If you are included in the exam order, the box your name is in will be white, and your AP ID will be visible underneath your name.

- If the box your name is in is orange or red, then you are not included in the exam order, and your performance tasks will not be sent for scoring for an AP score, even if you have submitted your performance tasks as final.
- If this information is incorrect, work with your teacher or AP coordinator to have this information changed. You can’t change this information yourself; your school’s AP coordinator needs to update the school’s exam order.

Navigate Through the AP Digital Portfolio

- The left menu allows you to select from an overall course **Overview** or drill down into each of the performance tasks for the course you are in.

- Your research question must be inspired by one or more of the stimulus materials. Your essay must refer to and incorporate at least one of these documents.
- As part of your research, you must find outside sources, including peer-reviewed academic work, that will serve as evidence for your argument. You must locate these sources independently.
- During your research process, revisit your original research question. Ensure that the evidence you gather addresses your original purpose and focus. Refine your research process, or your research question, as needed to make sure that your evidence aligns with your research question and supports your argument.
